So you say you're not at rest
You want to end your life
You say there's nothing more for you
But that's not true

Life is a Story
Don't you end it in your time
When it's given to others
Don't you take it away

So you say you're angry
At the man right there
You say you want to waste him
Make him disappear

Life is a Story
Don't you end it in your time
When it's given to others
Don't you take it away

Say hey now
Won't you turn this way
See our Creator
In each life you prey
So go now
And live your life
Live your life His way

So you say your frighten
Cause you're with child
Don't you walk in there
Let's pray awhile

Life is a Story
Don't you end it in your time
When it's given to others
Don't you take it away

Say hey now
Won't you turn this way
See our Creator
In each life you prey
So go now
And live your life
Live your life His way
Live your life His way

Life is a Story
